Sub : Laboratory Bar Coater/ Air Knife Coater With Coating Rod

Sir.

Please send your lowest quotation with terms and conditions for supplying the following

Sr. No.	Specification	Require Quantity	Delivery Place
1.	Technical Specifications: The coater consists of a welded square shaped frame. The frame contains a transformer, blower with a manometer 8 - 800 mm water pressure and a reversible motor driven table. Height of the Air knife above the test specimen and its angle in relation to the test specimen are adjustable. Air pressure is set by means of a control knob and is readily indicated on the built in pressure gauge and air gap is adjustable by the opening slits with the screws along the length of the airknife and is generally kept at 0.04 – 0.05 cm. It is a convenient coater for paper sheets 10” x 12” and is an important aid in screening work, when papers, pigment coating and plastic dispersions are tested in the laboratory.	01	CBPD, CIRCOT
